

**BUILDING PERMITS – REGULATION**  
**February 28, 1983**

At a regular meeting of the Granby Board of Health on February 28, 1983, the Board passed the following regulation effective immediately:

Prior to receiving an application to build for the expanded use of a dwelling or place of business, a “perc” test must be conducted, showing that a suitable sized area exists for septage for the modified structure.
